

Lassaad Boubarma

Software Engineering Student | AI & Software Development

Tunisia | +216 27 201 818 | boubarmalassaad@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

Available January–June 2027 for a six-month final-year project / internship

Professional Experience

Ooredoo Tunisia | Software Development Intern

Jun–Aug 2025

React, Java, Spring Boot, Apache POI, jsPDF

- Built a React + Spring Boot dashboard for exploring uploaded Excel datasets with dataset switching, filters and text search.
- Added persistent browser filters and generated shareable PDF reports from filtered results with jsPDF/AutoTable.

FORVIA Tunisia | Software Testing Intern

Jul 2023

Selenium, C | three-week school internship

- Wrote Selenium tests, built C testing utilities, analysed outputs and documented validation results.

Selected Projects

Enterprise Document Intelligence Platform

Python, Streamlit, SentenceTransformers, Ollama / Qwen3

- Built a local PDF/Markdown/text Q&A system with cited source passages, hybrid semantic + BM25 retrieval and cross-encoder reranking.
- Added role-based filtering, Hit@K/MRR retrieval evaluation and unit tests for filtering, chunking and metrics.

WorkHive | Service Booking Platform

React, React Native, Firebase, Tailwind CSS

- Built web/mobile booking flows, real-time messaging and role-based dashboards for customers and service providers.

Exploration of Tunis

Personal project | Place tracking

- Built a personal place-tracking app to remember locations visited in Tunisia, record ratings and decide what to revisit or explore next.

Orange VR Museum | Virtual Reality Showcase

Unity

- Developed an explorable 3D museum presenting Orange projects through an interactive museum-style experience.

Isekai Adventure | Game Development Project

Luau | RPG systems

- Developing an adventure RPG with character classes, progression, mounts and explorable zones.

Education

Software Engineering - MedTech, South Mediterranean University

Expected Jun 2027

Engineering degree programme

Profile

Software engineering student with hands-on experience in full-stack development, testing and document AI. Interested in practical AI systems and production-oriented software engineering.

Technical Skills

Languages

Python, Java, C, JavaScript, TypeScript, Luau, SQL

Web & mobile

React, React Native, Vue.js, Express.js, Spring Boot, REST APIs

Data & AI

RAG, semantic search, SentenceTransformers, Ollama, Streamlit

Data platforms

Firebase, Supabase, MySQL, MongoDB

Tools & testing

Git, Selenium, Postman, Jira, Linux, Unity

Certifications

Python Programming

Universite Paris Dauphine - PSL

Advanced Relational Database and SQL

Coursera Project Network

C for Everyone: Programming Fundamentals

UC Santa Cruz / Coursera

Leadership

Lions Club | HR Member

Supported club initiatives, internal communication and event logistics.
